## **Individual effort**

*Each member of the group should grade their own personal involvement, cooperation, collaboration, and effort for this project. If you only have two people in the group, please leave the page blank. This part should be completed BEFORE the presentation, and this rubric should be turned in before presenting, so Ms. Park can grade the group's project using this sheet.*

**Grade your involvement, effort, participation, collaboration, and cooperation. A person who went above and beyond and worked extremely hard on this project to his or her full potential deserves a 10. A student who did absolutely nothing should deserve a 0, and a person who put in effort, but did not really work the entire time or work hard should earn a 5. You get to decide how you worked and Ms. Park will trust your judgement. Integrity and honesty are wonderful virtues to practice.**
